

Are you an Austin Energy Contractor?

If so, you may qualify to save up to \$215 on each of the two NCI classes listed below!

(Qualified contractors may receive a \$100 rebate per class from Austin Energy. Check with AE for details.)

Residential HVAC System Performance*

Learn how to diagnose performance problems and offer real solutions!

**March 21-22, 2013
Doubletree Hilton Austin**

It's estimated over 50% of new HVAC equipment installations result in little or no energy saved. Even more end up with unresolved comfort issues. This is a huge opportunity for contractors who want to differentiate themselves by:

- Testing both new and existing installations
- Diagnosing comfort, IAQ and energy efficiency issues
- Providing real solutions through system renovations and documented results

**Qualifies for NCI Air Balancing Recertification*

Residential HVAC System Renovation & Retrofit*

Learn how to solve HVAC system defects and close more sales!

**March 21-22, 2013
Doubletree Hilton Austin**

BONUS: Get 2 NCI exclusive design programs – PreLoad™ and EQVerify™ - at \$395 Value for NO Extra Cost!

Once you've mastered how to test air distribution systems and identify performance problems, you're ready to learn how to properly renovate a system. This advanced course teaches a new renovation and retrofit method using PreLoad™ and EQVerify™ software to deliver high performance HVAC system renovations.

**Qualifies for NCI Air Balancing Recertification*

Courses Qualify for NATE, BPI and Most State CEUs

SUMMIT 2013

Save an additional \$115 per person if you also sign up for the 2013 NCI Summit (March 19-20) before February 28! Visit www.GoToSummit.com to download a Registration Form or call 800-633-7058!

NCI Members Save Even More!
